Subject: RE: Area 40 MOU Status

Hi, Chris. We incorporated Isabella's comments in the MOU, and after further discussion between Pete, you, and I, I then revised the MOU to reflect a temporary transfer period to DTSC only through finalization of a RAP. Superfund management and our legal folks are evaluating this change, since initially we were also transferring RD/RA lead to DTSC as well.

Pete, you and I should chat again about this. I'm free any time before 10:30 and after 1 pm today; could we catch up today before you head out on vacation?

Chris, due to time limitations I'd recommend we don't bring up the MOU details at our management's meeting today. We have discussed the MOU with management but there are still a few questions regarding the period of transfer of Area 40 from EPA to DTSC. Let me catch up with Pete and then the three of us can have a call to hash it out.

Thanks,
Lynn
